

Student Bring Your Own Device Portal

15th October 2025

Dear Parent/Caregiver,

As part of the Department for Education's Student Device Policy, Ocean View P-12 College provides a BYOD (Bring Your Own Device) Program in conjunction with our Student Device Program.

Any **FamilyStudent** planning on **purchasing** their **own device** for use at the **college** will **need to** purchase the device directly through this portal.

OVC will only be joining, configuring, and supporting student personal devices that have been purchased through the above portal. Devices that have been previously configured by ICT can continue being used however, it is recommended that you investigate purchasing a new device from the options available on the portal or participating in the Student Device Program.

We are pleased to announce the 2025 lineup of devices on our **BYOD Order Portal** with Learning with Technologies (LWT) <https://ocean.orderportal.com.au/>.

The devices available in this portal have been carefully selected to ensure they **meet the standards** set in the Student Device Policy and come with a 3-year onsite warranty repair with a single use Accidental Damage Repair (This enables 1 free repair for cracked screen, water damage, etc) If this repair is used up there is an option to reenable the protection for a fee.

The details of each device purchased through the portal are also sent to Ocean View's ICT Team, allowing them to keep a detailed database of student devices. This portal will also enable the ICT Team to identify misplaced devices and assist with all warranty claims and repairs.

Students in Years 7 and 10 will be able to join our Student Device Program, whilst students in Years 8 and 11 will be able to renew their involvement in the Program. Information on this Program will be made available shortly.

Your faithfully

Lee Burgess
